

## Best Exhaust: STILLEN Axle Back 2016-2017 Nissan Altima

Nissan gave its fifth generation L33 Altima a facelift for 2016, which includes revised front and rear bumpers, new headlights and taillights, and a refined interior. During the summer of 2016, STILLEN answered with a more aggressive styling package for the Nissan L33 Altima including the [Front Bumper Splitter \(KB13152\)](#) and [Rear Valance Diffuser \(KB13158MB\)](#) complementing and enhancing the striking lines of the Altima. STILLEN furthered its development revising the exhaust on the Altima, offering its latest [Axle Back](#)

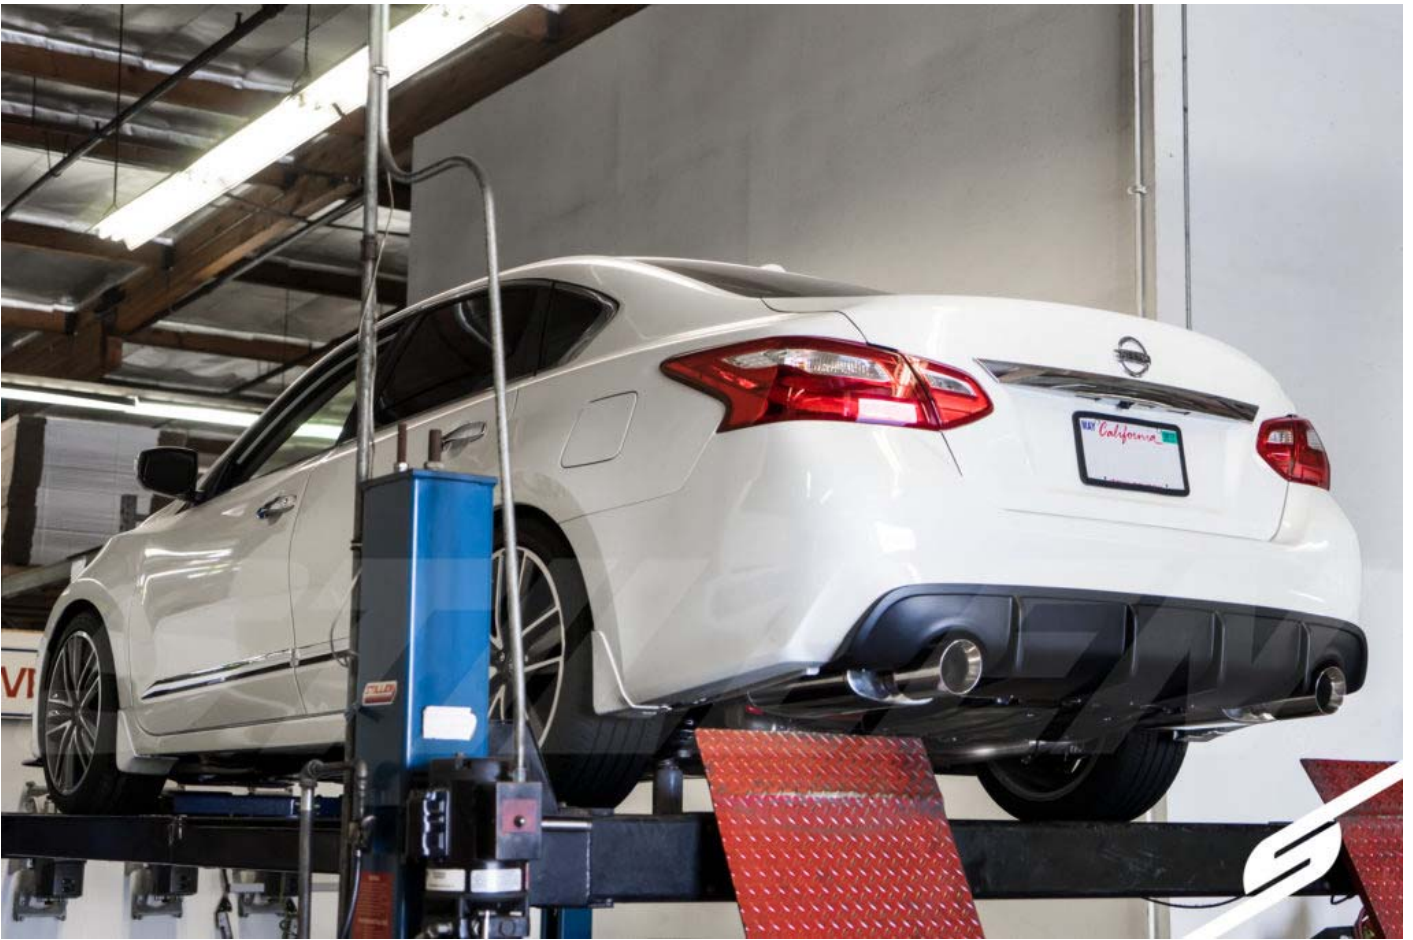

Exhaust (508321) 2.5L & 3.5L Sedan V6.

STILLEN's stainless-steel axle-back system for the L33 Altima features mandrel bent welded T304 stainless-steel piping linking to resonated stainless-steel muffler sections. The stainless-steel muffler tips can be adjusted to match the rear bumper fascia making this is a great complement to the STILLEN Matte Black Rear Valance Diffuser (KB13158MB). If you're looking to make more power, STILLEN also offers its short ram [STILLEN Hi-Flow Intake kit for 2013-2015 Nissan Altima Sedan \(402875\)](#).

- T304 Stainless-steel Construction
- Slip-fit Connectivity
- Adjustable Tips
- STILLEN Precision
- Designed and Manufactured in the USA

STILLEN engineers carefully select the components for every exhaust system to deliver the best performance, sound and fitment. Complimenting the exhaust cut outs with a beautifully polished exit tip that transforms the Altima into something more original and unique. STILLEN proudly designs, tests and manufactures every exhaust in the USA at the STILLEN facility in Costa Mesa, CA.

When it comes to quality performance air intake systems, Stilten is the brand you can depend on.
