

INSTALLATION INSTRUCTIONS

VERY IMPORTANT ! Read and understand all directions and check the following parts list before starting installation.

PARTS LIST					
1	Speed Grille Insert	1	Instruction Sheet	1	Street Scene Emblem
3	Installation Clips # 71097 1/2" Long Clip			1	Care For Grille
3	Installation Clips Wide Body Clips				

TOOL LIST	
Flat Blade Screwdriver	

1. Remove the black ABS lower grille from beneath the chrome grille by gently pulling to release the four metal retainers. (NOTE: If installing the 950-77190 OR 950-78190 upper grille at the same time remove the chrome upper grille and lower grille as a unit).
2. Install the Speed Grille insert over the round holes with the longer side of Speed Grille to the bottom. Fasten the top side using the three wide body clips. Insert clips into the center hole and the second to last hole at each end from the backside. The "HUMPED" side of clip goes toward the Speed Grille. Fasten the bottom side using the three short clips. Use a screwdriver to aid in clip installation by lifting the edge of clip.

TYPICAL CLIP INSTALLATION
