1	Care For Grilles	12	Installation Clips # 71097 (Upper Grille)
1	Upper Speed Grille Insert Set (1 RH , 1 LH		
1	Lower Speed Grille Insert Set (1 RH , 1 LH		

TOOL LIST	
Screwdriver	

1. Remove the black ABS grilles from the front fascia. They are retained by tabs on the grilles. Pry out gently.
2. Remove necessary panels to gain access to backsides of openings.
3. To prevent scratching of fascia apply masking tape to perimeter of opening before installing Speed Grille.
4. Install Speed Grille inserts into openings. Refer to illustration for clip installation procedure. Use clips that correspond to thickness of fascia. Six clips are required per grille section. Discard excess clips.
5. Raise front of vehicle by a suitable means (hoist, floor jack and jack stands). Remove any air deflectors (if so equipped) to gain access to back side of openings.
6. Install the Speed Grilles into openings from the front side.
7. From the backside, fasten in the same manner as the top. Use the 71098 (3/4" Long). Use four clips across the top and four along the bottom.

TYPICAL CLIP INSTALLATION
