PARTS LIST					
3 PC	Speed Grille Set	1	Instruction Sheet	6	Tinnerman Nuts
6	Phillips Screws				

TOOL LIST	
NO TOOLS REQUIRED	

NOTE:

We highly recommend installing Billet Grilles into valance before installing valance on vehicle.

1. Install Billet Grille inserts into their respective openings. From the backside, use the phillips screws and tinnerman nuts provided. Screw the phillips into the mounting hole on the billet grille and into the side of the valance when it goes through the valance then use the tinnerman nut and you will have a tight fit.
