2009
FORD F-150
XL, XLT, STX, FX4
MAIN GRILLE
BILLET

INSTALLATION INSTRUCTIONS

VERY IMPORTANT ! Read and understand all directions and check the following parts list before starting installation.

PARTS LIST					
1	Billet Grille Insert	1	Instruction Sheet	4	L-Brackets
4	2-1/2" Hooks	4	10-32 Nylock Nuts		

TOOL LIST	

Step 1. Open the hood and insert the grille with the stop brackets facing down. The stop brackets are welded on to the grille and provide proper spacing.

Hook, L-bracket, and nylock

Step 2. While holding the grille in place take a hook and attach it to the vertical rod, at position 1 above, while feeding the threaded portion of the hook through the plastic shell. Slide the L-bracket onto the threads, position it behind the plastic, and fasten it with a nylock (do not over tighten). See picture above to find position of the hooks. Repeat step for the other 3 hooks.

We hope you enjoy you new grille!
