PARTS LIST					
1	Bumper Cover/Valance	1	Instruction Sheet	1	Street Scene Decal

TOOL LIST
None Required To Install

NOTE:

This part is a bumper cover and valance combo.

NOTE:

There is no license plate mount on the valance. If require a front license plate **DO NOT** install this valance.

NOTE:

Valance fits PIAA 1000 lamps or other small oval lamps can be adapted.

NOTE:

Speed Grilles are available. Order Street Scene Equipment Part # 950-77123

Check for fit and remove to paint. Follow the following procedure.

Valance prep & paint - A professional shop experienced in painting urethane parts is highly recommended. Use standard urethane paint preparation procedures on entire outer surface including the top edge return where the 2 sided tape will be applied. Standard procedures include cleaning with silicone removing solvent, finish sanding till all shiny surfaces are dull, using a primer with adhesion promoter, and adding flex agent to the paint.

1. Remove OEM valance from front bumper.
2. Remove the license plate holder from the bumper.
3. Starting at one corner, slip the valance over the bumper and gently pull to the opposite side and snap over the bumper. No other fastening is required.
