**BILLET GRILLE**

**92-96 F-150**  
**92-98 F-250 & 350**  
**92-95 Bronco**

**Tools Required:**

Phillip Screw Driver

**Hardware / Parts List (bolt-on):**

1 - Billet Insert (24 Bars)

**Read and understand instructions before attempting installation**

**Note: THIS BILLET GRILLE REPLACES THE ENTIRE GRILLE SHELL. After installation; Opening the hood will require the use of a long screw driver or similar tool to insert in between the bars of the billet grille to release the hood latch.**

**Step1**

Open the hood and remove the four screws on top of the header panel that hold the factory grille shell. Remove the grille.

**Step2**

Remove the two rubber caps off the factory grille and place them on the lower mounts on the billet grille. Place the billet in the lower factory mounts. Place the upper brackets on top of the header panel (it may be necessary to slightly bend the brackets to get a perfect fit). Fasten the upper four brackets with the factory screws.

**Step3**

Installation complete. *Thank you for purchasing a T-Rex billet grille.*
