History

Founded in 1993, Techno-Fab has made its mark in the design, assembly and commercialization of ladder and stepladder racks for commercial vehicles. Its mission is to offer products designed by professionals for professionals.

Located in a brand new factory in St.Hyacinthe, Quebec, Canada, since 2013, Techno-Fab serves the market via its distribution network. A dynamic team is in place to provide each customer with an attentive and personalized service ensuring that every customer is supported at every stage; from the selection of the right product to the after-sales service.

Techno-Fab products are made from extruded anodized aluminum and stainless steel which gives them their lightweight and durability. Their design is based on ergonomics and safety considerations.

Let Techno-Fab be part of your workday

SECURITY

Padlocks can be installed on all of our ladder racks.

Techno-Fab is proud to offer you the *RackXpress* program

With the satisfaction of our customers in mind, we have set up a unique program: without any additional cost, we guarantee that all *RackXpress** products will be ready for shipment within 24 hours of confirmation of your order. We have selected our most popular products to make it easier for you.

One-of-a-kind program

- For orders from 1 to 5 units
- Orders must be confirmed by our customer service by noon ET
- For any questions about the lead times for orders of more than 5 ladders racks, you can contact our customer service who will be pleased to answer you!

* For products not included in the program, a period of three (3) business days is normally provided for five (5) units or less.

* Note: Program available only in Canada

ANODIZED ALUMINUM

The anodized surface coating treatment protects aluminum objects (electrically insulating layer).

The treatment increases resistance to corrosion, wear and high temperatures.

Categories

Discover our 5 categories of rugged and lightweight products which will impress you by their ease of use. Each rack is delivered in a simple and complete package.

Techno-Easy

Drop down roof rack for vehicles with low or medium roofs. Once the rack installed, you can easily change its configuration in just a few minutes and as often as you like!

Estimated installation time: 2.30 hours

Configuration Options

Single drop down
Double drop down

Ladder and stepladder

6 ft. stepladder to a 28 ft. ladder

Techno-Space

This rack allows you to maximize the space on your vehicle. The Techno-Space universal rack adapts to all types of ladders and stepladders and is suitable for almost all types of vehicles, fiberglass caps and trailers.

Estimated installation time: 2 hours

Configuration Options

Universal

Ladder and stepladder

6 ft. stepladder to a 28 ft. ladder

Techno-Work

Clamp down roof rack which allows a user to haul ladders and stepladders and gives you the ability to add the different options.

Estimated installation time: 2 hours

Configuration Options

6 ft. to 8 ft. stepladder to a maximum 28 ft. ladder
8 ft. to 10 ft. stepladder and a maximum 28 ft. ladder
Two maximum 28 ft. ladders
One maximum 28 ft. ladder

Techno-High

For **high roof vehicles**. In a natural movement, the Techno-High can be deployed from a 65" height in a one-step process.

Estimated installation time: 3 hours

Configuration Options

Single drop down
Double drop down

Ladder

24 ft. to 32 ft. ladder

Techno-Force

Simple, but very efficient. **Basic rack** for a ladder, canoe or any other object that you must transport!

Estimated installation time: 30 min

Techno-Fab racks are designed for extension ladders. For straight ladder, please contact Techno-Fab.

Never put two ladders and stepladders over one another.

Installation times are only provided for illustrative purposes.

TECHNO-SPACE

PRODUCTIVITY AT
YOUR SIDE

Readily accessible rack which can be used with a roof rack, the Techno-Space will make things easier for you. This universal lateral rack is a **MUST** for all types of trades.

Features

- Universal: for all vehicles, fiberglass caps or trailers
- Can be installed for a stepladder or a ladder
- Patent pending

Estimated
installation
time

2:00

TECHNO-EASY
