7 Start to Use Your ThinkDriver Device

After downloading the diagnostics software, it will jump automatically to scan the OBDII protocols supported by your vehicle. And ThinkDriver would start running the diagnostics software when there are protocols available. ThinkDriver is compatible with all vehicles supporting OBD II protocols after 1996, mainly including ISO 14230-4 (KWP2000), ISO 15765-4 (CAN), ISO9141-2(iso), ISO14229(uds), SAEJ 1850(VPW&PWM).

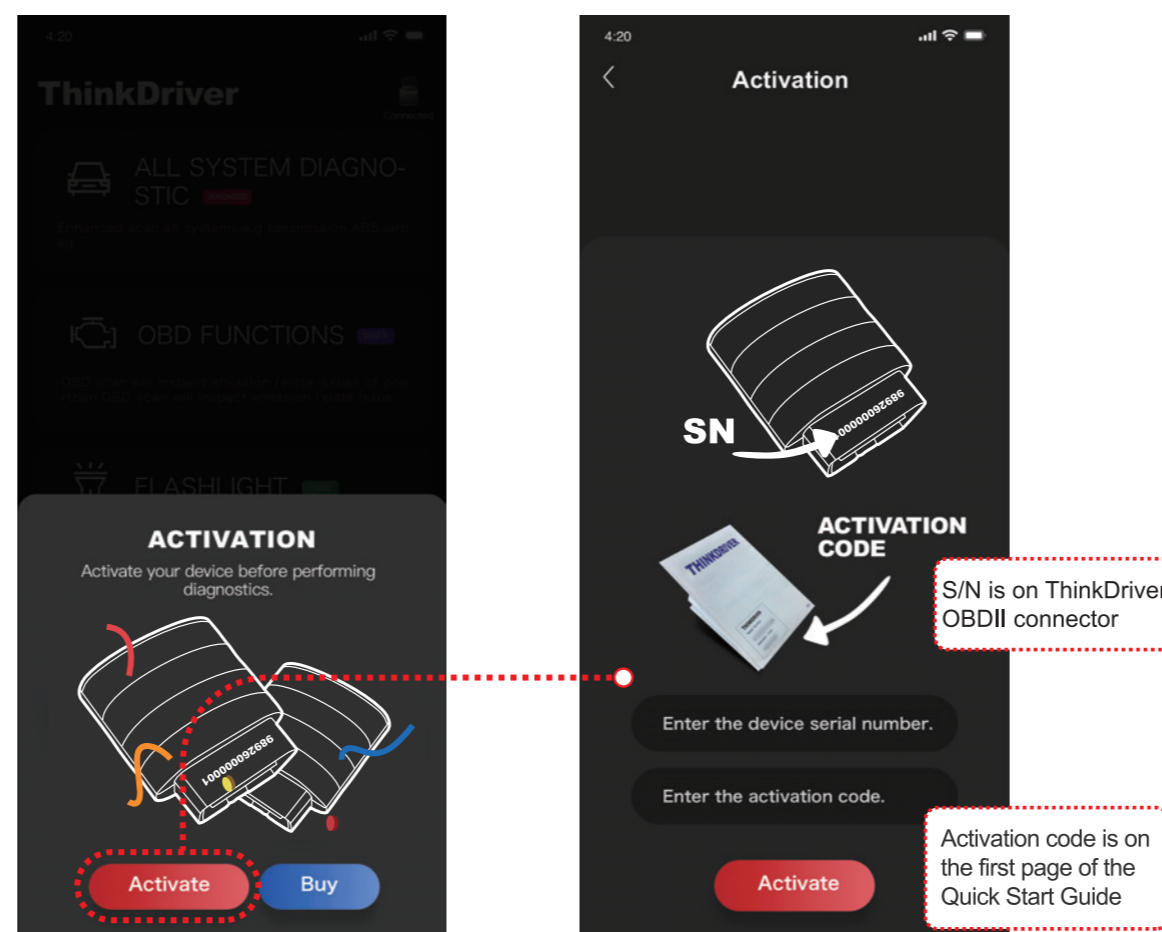

8 FAQ

- Q:** What do the different lights on ThinkDriver indicate?
- A:** There are four different lights on ThinkDriver:
- Continuous Green Light: ThinkDriver device is powered on.
 - Continuous Blue Light: Bluetooth is connected.
 - Flashing Blue Light: Bluetooth is in communication.
 - Continuous Red Light: Firmware upgrade successful or firmware upgrade failed.

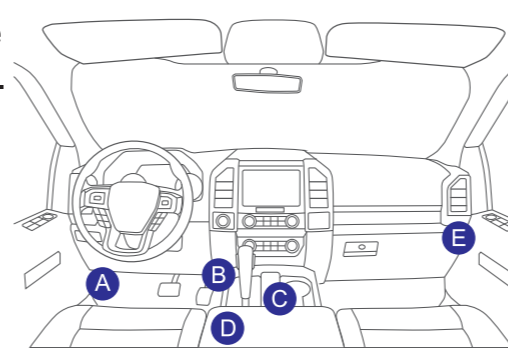

3 Activate a ThinkDriver Device

After your registration, you will receive a notification with your "Activation Code". Click on "Activate" to open the activation page, you need to input the serial number and an 8-digit activation code, to complete the process of activation and account binding for your ThinkDriver device.

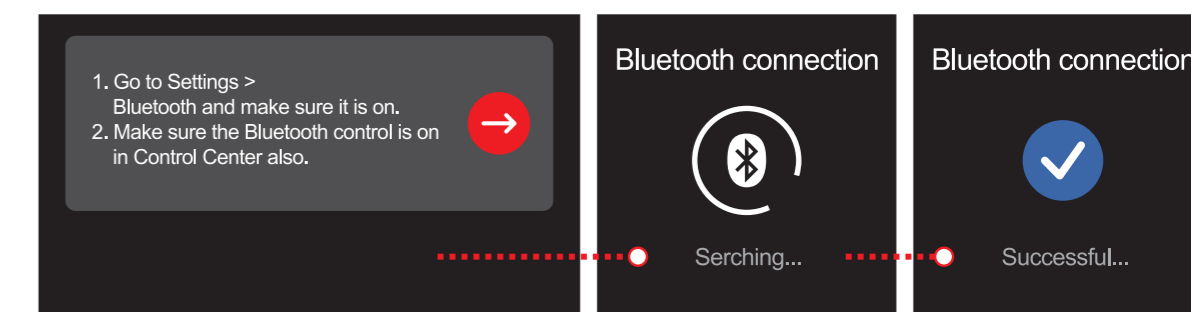

4 Insert the ThinkDriver Device into the OBDII port in your vehicle

Usually, the OBDII port is located under the dashboard, above the pedal on the driver's side. Here are the 5 common positions for the OBDII port (as shown in the figure below). Insert the ThinkDriver device, there will be a green light which indicates the device is powered on.

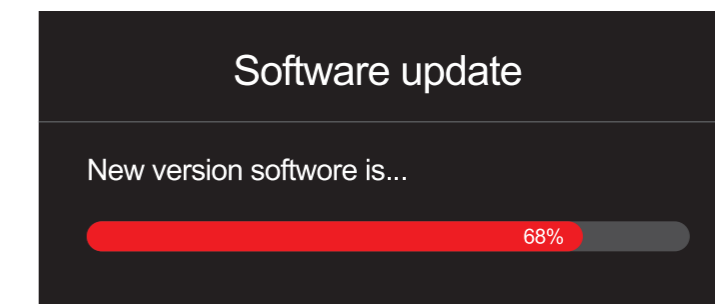

5 Bluetooth Connection

Open the ThinkDriver App, it will automatically search for activated devices, select your device and connect to it via Bluetooth in the App. Note: Please do not directly connect the device to your phone via Bluetooth settings in your phone OS. Make sure to pair your device within the App by following the instruction of it.

6 Download Diagnostics Software

In the "Diagnostics" interface of the App, you will need to download the corresponding diagnostics software when first apply "All System Diagnostic" and "OBD Functions". And there is no need to download again next time.

- Q:** Why do I need to download the diagnostics software after downloading the App?
- A:** Due to a variety of vehicle manufacturers on the market, different vehicle manufacturers require corresponding diagnostics software. Therefore, ThinkDriver will recognize the vehicle manufacturer first while diagnosing, then it will download the corresponding diagnostics software to work.
- Q:** What vehicles can ThinkDriver diagnose?
- A:** ThinkDriver is compatible with all vehicles supporting OBD II/EODB protocols after 1996, with more than 100 vehicle brands supported.
- Note: Depending on your vehicle, the diagnostics software size varies and download speed is different as well. When first downloading the diagnostics software, it might require a good network connection.*
- Q:** May I print the diagnostic and scan report of ThinkDriver?
- A:** ThinkDriver will generate a diagnostic report after finishing the diagnostic process. You can share the report with friends or open it on PC and print with printer.
- Q:** Does ThinkDriver need firmware upgrade?
- A:** Yes, it does. When the ThinkDriver device is connected via Bluetooth to your smartphone, it will automatically check if the firmware on your device is the latest version. If it's not, it will upgrade automatically.
- Q:** What smartphones can download ThinkDriver App?
- A:** ThinkDriver App supports smartphones with Android 5.0 and above, IOS 9.0 and above. It cannot be used on PC with WINDOWS system.
- Q:** Is one ThinkDriver able to work with several vehicles?
- A:** Yes, it is. Extra charge might be needed for some services. The OBD II function of ThinkDriver can be used on any vehicle without any extra charges.
- Q:** What is the point of a ThinkDriver account? How to use the points?
- A:** Every user can get points. For example, by recommending others purchase our products, participating in Thinkcar Tech's official activities, etc. One point redeems one dollar, which can be used to purchase products and services. There will be more ways to get collect points in the near future.
- Q:** What is the invitation code in ThinkDriver App? How to use it?
- A:** After signing up for your account in the App, you will get your own invitation code. The code can be shared with your friends and they will get a discount. Every time the invitation code is used, you will get points as mentioned in the previous part.
