Throttle Down Kustoms Dealer Program

Bypass cookie cutter truck bumpers. Throttle Down Kustoms (TDK) produces custom fabrications that satisfy the most demanding truck owners. These are sturdy and precise bumpers welded by certified professionals that can be painted in any color or powder coated.

Customer service and quality we stand behind. TDK is a trusted, premium name in aftermarket steel bumpers. You get installation instructions with every bumper, and we offer a lifetime warranty.

A dealer program that beats the rest. We work directly with dealers and have a program designed to make purchasing, installation, and customer inquiries easy and quick. Plus, there are no middlemen inflating costs. You and your customers get the best price.

For nearly the same cost as a replacement OEM bumper, why not give your customers a quality, unique upgrade?

About Throttle Down Kustoms

Throttle Down Kustoms designs, engineers, and builds steel bumpers with real, honest-to-goodness work vehicles in mind. All of our products are made from laser-cut solid steel and hand-welded by certified, trained professionals at our Montana facility.

Our Bumper Specs

- CNC laser cut and formed for precise fitment
- Handmade out of 3/16" and 1/4" PNO steel plate
- Can be shipped shrink-wrapped with a paintable finish (no swirl marks)
- 3/4" clevis mounts with 7/8" holes included
- Factory parking sensors are not affected

Steel Bumpers for Chevrolet Trucks

Throttle Down Kustoms offers a variety of bumpers for 2001 or newer Chevy trucks (see below). Our bumpers are hand-built by experienced and certified welders with sturdy PNO steel plate to ensure durability in any condition. Each bumper is CNC laser cut for precise fit and comes with a set of 3/4" Clevis mounts with 7/8" holes for severe duty. Throttle Down Kustoms steel bumpers are compatible with fog lights, parking sensors, and more. We customize bumpers for each truck. Choose from a variety of options such as powder coating color, lighting holes, and more.

AVAILABLE FITMENTS

*Standard bumper can be made to include grille guard, prerunner, or push bar.

Steel Bumpers for GMC Trucks

The GMC Sierra is a well-built truck, but its stock bumpers don't offer the kind of protection a working truck needs. For nearly the same cost as a replacement OEM bumper, why not give your customers a quality, unique upgrade? Throttle Down Kustoms offers custom high-strength steel bumpers designed specifically for GMC Sierras dating back to 2001. With one of our bumpers on a Sierra, your customers can face almost any condition without worry about dents, scratches, or other damage. We employ the best welders and fabricators to handcraft our top-notch bumpers in-house at our facility in Moore, Montana.

*Standard bumper can be made to include grille guard, prerunner, or push bar.

Steel Bumpers for Dodge/Ram Trucks

For Dodge or Ram 1500 - 3500 models dating back to 1994 and 1500 - 5500 models dating back to 2006, Throttle Down Kustoms has a custom bumper option available. All TDK bumpers are CNC laser cut, MIG hand welded, and built with solid PNO steel plate to ensure the highest quality possible. They're built to withstand hardship, strain, and exposure to the harshest conditions, and they all come with a lifetime warranty. Plus, as always, they are customizable.

*Standard bumper can be made to include grille guard, prerunner, or push bar.

Steel Bumpers for Ford Trucks

TDK's Ford bumpers are built mostly for heavy-duty Ford pickups - F250 and higher - but we also offer a selection of bumpers for newer F-150s and, of course, the Raptor. Our selection includes front and rear bumpers, grille guards, prerunners, push bars, and more. We're happy to customize any bumper, adding light holes, powder coating, and more to ensure you get the right fit for the customer's truck.

Steel Bumpers for Toyota Trucks

When it comes to steel bumpers, you can't go wrong with Throttle Down Kustoms. Designed and handmade specifically for Toyota trucks, our bumpers are made from CNC laser-cut solid PNO steel plate. Every bumper from Throttle Down Kustoms is available either powder coated or with a ready-to-paint steel finish. The bumpers can be ordered with or without the holes and OEM-style fasteners needed for parking sensors and fog lights (depending on model), and of course every bumper is handmade in the USA. Every bumper also comes with a **limited lifetime warranty**.

New! Cyclone Truck Bumpers

Throttle Down Kustoms' new Cyclone Series bumpers are the perfect fit between fun and function, offering more customization than any of our other bumpers. Customization options include a removable, customizable vent with multiple color choices, including stainless steel or unpainted, and customizable fog light holes in the bumper. Plus, the Cyclone series features OEM parking sensors and TDK's first integrated LED light bar mount, compatible with an available 20" Rigid LED light bar.
