

Brake Accessories

**Bias Adjusters
90° Coupler**

| Description | Part Number |
|------------------------|-------------|
| Standard Bias Adjuster | 72-508 |

| Description | Part Number |
|------------------------------|-------------|
| Premium Billet Bias Adjuster | 72-408 |

Standard Bias Adjuster

Finger-grooved plastic adjustment knob.

- > Vibration-resistant, spring-loaded dual-detent knob retention
- > High quality 6-foot steel cable
- > "Wind-up" resistant cable sleeve
- > Includes couplers to fit 3/8"-24 and 7/16"-20 balance bars

Premium Bias Adjuster

Lightweight billet aluminum adjustment knob with rubber grip.

- > Cross-action, spring loaded, dual detent system provides smooth and precise action.
- > High quality 6-foot steel cable
- > "Wind-up" resistant cable sleeve
- > Optimized for function, durability and weight savings
- > Adjuster can be easily taken apart for inspection and cleaning.
- > Includes couplers to fit 3/8"-24 and 7/16"-20 balance bars

90° Coupler for Bias Adjuster

Designed to connect remote brake bias adjusters to balance bars at a 90 degree angle. This allows the adjuster's cable to be routed so that it does not interfere with the clutch or throttle pedal.

Features

- > High-quality steel bevel gears
- > Compact aluminum case
- > Durable black-anodized finish

| Description | Part Number |
|-------------------------------------|-------------|
| 90° Coupler (3/8"-24 balance bars) | 72-560 |
| 90° Coupler (7/16"-20 balance bars) | 72-561 |

All components are not designed for use with Anti-lock Brake Systems (ABS)
