

TOYO TIRES®

WINTER PASSENGER - LIGHT TRUCK - SUV-CUV

*Are you Toyo
winter ready?*

TOYO TIRES®
driven to perform

What makes it work so well?

It's a combination of advanced technology and rigorous testing. TOYO Observe winter tires are actually tested and designed for use in even the worst of Canadian winters.

Crushed black walnut shells embedded into the tread compound increases traction and braking on ice and compacted snow. It's like having thousands of tiny spikes digging into the ice or compacted snow. Why walnut shells? Because it is one of the hardest natural substances in the world so it works great plus it's easy on the environment.

Increased levels of silica and improved dispersion in the compound allows better block flexibility at lower temperatures enhancing wet grip and braking, while maintaining traction in low temperatures.

An absorbent carbonic powder made from bamboo charcoal removes the thin water layer on the ice surface allowing for better contact. Better contact means better traction.

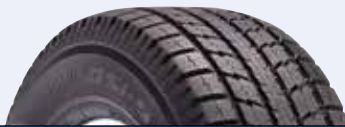

Advancements in design technology like "saw toothed" block edges and "multi-wave" sipes increase grip during a variety of winter conditions. At TOYO TIRES, we design our winter tires to be "all-around" winter tires ready for all winter conditions.

All-Around Winter Tires!

LEGEND

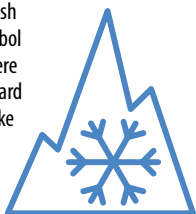

- Winter Traction
- Tread Compound
- Advanced Siping
- Tread Design
- Construction

A summarized comparison of features offered on Toyo winter passenger and light truck tires.

Transport Canada Approved for Severe Winter Conditions

Transport Canada in conjunction with the Rubber Association of Canada and the Rubber Manufacturers Association in the U.S.A. have introduced a new performance standard requirement for snow tires. This new standard was developed to help consumers distinguish between an "all season" tire (represented by the symbol "M+S") and tires specifically designed for use in severe winter conditions. Tires now meeting this new standard for true winter tires will display a mountain/snowflake pictograph on the sidewall in addition to the M+S symbol.

TOYO Tire Canada, a market leader in winter tires, advises that its complete line-up of Observe winter tires will display the mountain/snowflake symbol.

PASSENGER, LIGHT TRUCK, VAN, CUV OR SUV

OBSERVE GSI-5

For drivers who demand the best out of their winter tires.

Not only GREAT ON ICE ...

but also on snow, slush or *any*
cold weather condition!

Whether it's snow, slush, ice or just slippery roads, the Observe GSi-5 has the technology to handle all our winter conditions.

Superior ICE traction

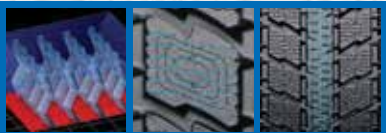

Walnut shells Carbonic powder

Microbit walnut shell technology and carbonic powder work together to grip on slippery surfaces.

Advanced sipes for dependable grip

Industry leading sipe technology ensures maximum grip and ride comfort.

Multi-wave

Spider

Swing

Advanced tread design for added traction

Effective blocks

Deep grooves

Arrow lift

Advanced tread design gets you through snow, slush or whatever!

The best for the worst conditions.

TOYO TIRES

OBSERVE G3-ICE

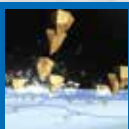

Directional winter tire for passenger vehicles.

A winter tire with a twist ...

Great traction ... but with a more comfortable ride than expected from a winter tire!

Toyo's Microbit studless tire technology and advanced directional tread pattern improve handling in snow, ice or slush, while offering superior ride comfort.

Studless ICE traction

Walnut shells

Microbit walnut shell technology bites into slippery surfaces.

Pinned for studs

Studdable

The option to add studs for severe winter driving conditions.

Computer aided tread design

Toyo uses advanced design techniques to ensure increased traction on ice, slush or snow.

Sipes

Tread design

Technology

Aggressive yet comfortable

Effective blocks

Wide grooves

Alternating blocks

Designed to grip in snow and slush yet maintain a more comfortable ride.

stud - TSMI #11

Added traction - added comfort

OBSERVE GARIT Kx

All-Around Performance Winter Tire

For drivers who demand ...

Added winter traction with optimal performance in a cold weather tire!

Designed to help maintain the handling characteristics of today's performance tuned vehicles while providing added winter driving security.

Great studless ICE traction

Walnut shells

Microbit walnut shell technology bites into slippery surfaces.

Performance feel

H-speed rated

A speed rated tire to ensure stability at higher highway speeds.

Designed to handle slippery surfaces

Advanced sipe technology improves traction on ice while cornering, braking or accelerating.

Wave sipes

Vertical sipes

First edge

Great in snow or wet conditions

Sawtoothed

Wide grooves

Advanced tread design and tread compounding add grip on ice, slush or snow.

Winter traction - stable ride!

PASSENGER, LIGHT TRUCK, VAN, CUV OR SUV

OBSERVE GSI-5

One great tire for a variety of applications

The Observe GSi-5 ...

Comes in "P" metric and millimetric sizes designed for your Light Truck, SUV, CUV or Van!

Toyo has applied the Observe GSi-5 technology in a variety of sizes that fit a variety of vehicle applications.

Superior ICE traction

Walnut shells

Carbonic powder

Toyo Studless tire technology helps heavier vehicles maintain a positive grip in slippery situations.

Heavier vehicles need advanced technology to grip onto all slippery surfaces.

Advanced sipes for dependable grip

Multi-wave

Spider

Swing

Advanced tread design for added traction

Effective blocks

Deep grooves

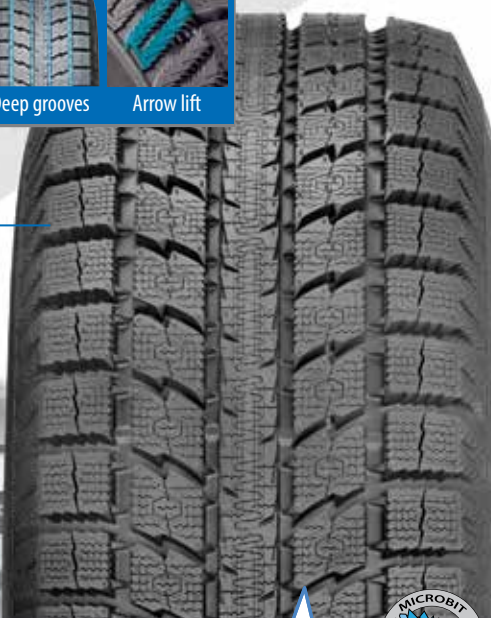

Arrow lift

Designed to handle Canada's worst winter conditions!

Advanced traction through technology

TOYO TIRES

LIGHT TRUCK OR VAN

OPEN COUNTRY WLT1

Built to handle a tough load in tough winter conditions!

Engineered to deliver optimal performance for a variety of commercial vehicle applications in demanding winter road conditions.

Improved ice and snow traction along with longer wear life.

Tough construction

Rigid casing

Toyo Tire addressed the load carrying requirements for commercial vehicles by developing a tire that can carry the loads and aggressively get through our tough winter conditions.

Incorporating Toyo winter technology improves traction on ice and snow.

Increased winter traction

Sipe density

Sipe positioning

Block angles

Aggressive winter grip

Effective blocks

Deep grooves

Maintaining stability while increasing winter traction is the key to the success of the Open Country WLT1.

Heavy loads or winter traction ready!

TOYO TIRES

LIGHT TRUCK OR VAN

OPEN COUNTRY[®] C/T

Commercial duty, all weather, all terrain tire!

On or off-road performance ...

for all seasons.

Delivers optimum traction in all off-road conditions including dirt, gravel, mud and snow while providing a quiet, comfortable highway ride

Durable and long lasting

Tough construction

A new tread compound offers cut or chip resistance with improved winter traction. A tough 3-ply casing provides durability and performance no matter what the load.

An aggressive tread design offers increased traction in mud, dirt or even snow!

Increased winter traction

Deep grooves

Deep sipes

Large blocks

Rugged but with great looks!

Stone ejectors

Aggressive tread

Sidewall block

A light truck tire designed for tough commercial applications without compromising great looks.

stud - TSMI #15

Tough traction for all seasons

OBSERVE G3-ICE

OPTIMIZED SCRATCH EFFECT FOR BETTER TRACTION AND QUIETER RIDE

When studs are installed the Observe G3-ICE offers enhanced ice performance due to a newly optimized stud distribution pattern which increases road contact across the tread face.

Lines in ice left by Competitor's Tire

On its own the Observe G3-ICE with advanced tread design and Toyo's Microbit studless technology performs great in all winter conditions. For added traction the Observe G3-ICE is designed to accept studs.

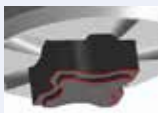

Lines in ice left by Observe G3-ICE

IMPROVED STUD DESIGN FOR BETTER WINTER PERFORMANCE

An improved stud design ensures better fit and better grip in all directions!

Toyo multi-directional Stud technology

A new advanced X-shape design ensures multi directional grip improving traction on ice and compacted snow when turning, accelerating and braking!

In areas with severe winter conditions every inch counts and Toyo's advanced stud technology can help!

Standard Stud
