Remove plastic plugs or factory hex bolts (if equipped)

(2) 8mm Hex Bolts  
(2) 8mm Flat Washers  
(2) 8mm Lock Washers

(Fig 2) Driver side front mounting location pictured

2. Repeat **Step 1** for center and rear Mounting Bracket installation, (**Figures 3 & 4**).
3. **IMPORTANT:** Use the illustration on this page to identify the sidebars before continuing with the installation. Verify that the Brackets are in the correct locations as illustrated above. Carefully place the driver Sidebar onto the Brackets. Align the inserts in the bottom of the Sidebar with the slots on the Mounting Brackets. Attach the Sidebar to the Mounting Brackets with the included (6) 8mm x 30mm Hex Bolts, (6) 8mm Lock Washers and (6) 8mm Flat Washers, (**Figure 4**). Do not tighten hardware at this time.

### Note:

- > This guide is to identify the parts and not a reference for part count.
- > For part count, refer Parts List.
- > Product / Bracket image is representative and actual design may vary.

## PRODUCT CARE

- Periodically check the product to ensure all fasteners are tight and components are intact.
- Regular waxing is recommended to protect the finish of the product.
- **Use ONLY Non-Abrasive automotive wax.** Use of any soap, polish or wax that contains an abrasive is detrimental and can scratch the finish leading to corrosion.
- Aluminum polish may be used to polish small scratches and scuffs for **Stainless Steel finish.**
- Mild soap may be used to clean the product for both **Stainless Steel and Black finish.**

## FAQ's

### 1. Hardware's are not of correct size.

*In GMC / Chevrolet truck model 2006 & up, customer needs to reuse the factory body bolts to install the bracket. If your vehicle is not GMC / Chevrolet 2006 & up, ensure that holes are not partially covered with any plastic grommet or rust? If it is, remove the plastic grommet & rust from the thread holes & re-try the installation.*

### 2. Mounting Bracket are not getting Installed properly.

*In some cases Illustration images shown in Installation manual may not be the exactly same as per actual vehicle images ,also if Driver / Passenger side mounting brackets are very identical in the design, suggest referring Parts Identification guide to avoid fitment issue.*

### 3. Products are thumping / rattling after installation.

*Ensure that all required mounting brackets / hardware's are installed & tighten correctly. Suggest using white lithium / regular grease between the metal to metal contact surfaces.*

### 4. Side Bar is not aligning with vehicle / Step Pads are not aligning with vehicle doors.

*Side bar may be interchanged or mounting brackets are not installed at the correct position in the vehicle. Refer Parts identification guide.*

### 5. Missing / Excess Hardware.

*Recheck hardware count as per the part list.*

### 6. Product not installing properly.

*Ensure make model year, cab length and bed size of your vehicle is listed in the application. All installation steps are followed correctly.*
