

**50  
GALLON**

## The Momentous 50

*Extend your smiles to the gallon with a safe, legal, and reliable refueling tank!*

**K**eept the adventure going mile after mile with a refueling station in the bed of your pickup truck. Our 50-gallon refueling tank system is Department of Transportation (DOT) legal to carry and transfer gas, diesel, methanol/ethanol, and kerosene.

Transfer Flow refueling tanks come complete with everything needed for installation.

The easy-to-use hose-purge feature allows you to pull any fuel left in the hose back into the refueling tank to eliminate messes in the truck bed and stretch your extra fuel capacity even further.

The 50-gallon refueling tank is made from 12-gauge ReliaSteel®, high-yield U.S. aluminized steel, for superior durability and strength; and powder coated black for durable satin finish. As with all Transfer Flow fuel tank systems, this refueling tank comes complete with all parts needed for installation.

**SHORT AND LONG BED**

**Fits:** All Full-Size Trucks  
**Fuel:** Gas, Diesel, Methanol/Ethanol, Kerosene  
**Ship Weight:** 206 lb.  
**Dimensions:** 54 3/8" L × 15 1/2" W × 24" H  
**Part Number:** 080-01-09417  
**Textured Coating Part Number:** 080-BL-09417

### FEATURES AND BENEFITS

- For drivers who own ATVs, boats, generators, landscape or farming equipment, or want to fuel their truck or additional vehicles
- Comes with 12-volt GPI® fuel pump, 12 ft. hose, nozzle, fuel cap, wiring harness with cab-mounted power switch, and mounting hardware
- DOT legal for gas, diesel, methanol/ethanol, and kerosene
- Built from 12-gauge ReliaSteel®, high-yield U.S. aluminized steel, for durability and strength
- Powder coated black for durable satin finish
- Pumps up to 15 gallons per minute
- Baffled to prevent fuel sloshing
- 6-year, unlimited mile warranty
- **Optional upgrades:** Textured coating, methanol/ethanol pump
