Replacement for OEM  
80292-S5D-A01 (All Others)  
80292-SCV-A01 (05-07 Element)

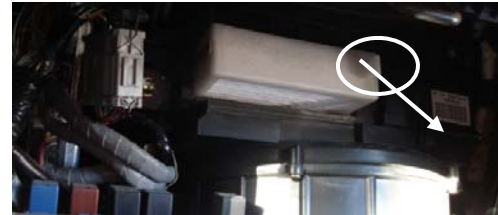

02-06 Acura RSX  
01-05 Honda Civic Sedan/Coupe/Hatchback/Hybrid  
**02-06 Honda CR-V**  
03-10 Honda Element

1. The filters are located behind the glove compartment. Push on the 2 black retaining latches on the glove box to remove. Let glove box swing down on its hinges and expose the filter access door behind it.

2. Pull on the tab on the filter access door to release it. Set filter access door aside.

3. Grab the handle and slide out the first filter frame.

4. Slide the second filter frame to the left, then slide it out too.

5. Remove old filters from filter frames and insert new **TYC filters**. Ensure that Air Flow arrow is pointing down for both filters.

6. Reinstall in reverse order.
