- ▶ Enhanced HVAC Performance
- ▶ Easy Installation, Perfect Fit

**TYC #: 800006P**

Estimated Time : 5 min.

Replacement for OEM  
88568-02020

**03-08 Toyota Corolla**  
03-08 Toyota Matrix

1. The filter is located behind the glove compartment. Disconnect the retaining arm on the right side of the glove box by removing its screw. Push on the sides of the glove box while pulling down to disengage the latches and allow glove box to swing down on its hinges.

2. Filter access door is now visible. Push on the 2 retaining tabs to remove the filter access door. Set door aside.

3. Slide out old filter and replace with new TYC filter, ensuring that the Air Flow arrow is pointing down.

4. Reinstall in reverse order.

Installation guide pictures are from the **BOLD** vehicle model.
