Estimated Time : 10 min.

Replacement for OEM
G3210FE100 (New)
72880FE000 (Old)

02-07 Subaru Impreza / Outback Sport

1. The filter is located behind the glove compartment. Remove 1 clip on the side and 2 screws beneath the compartment.

3. Remove filter access door by lifting on the 2 locking tabs.

2. Remove 7 screws to remove glove compartment.

4. Slide out old filter and install new TYC filter. Ensure that Air Flow arrow is pointing down.

5. Reinstall in reverse order.
