- ▶ Easy Installation, Perfect Fit

**TYC #: 800032C**

Estimated Time : 5 min.

Replacement for OEM  
30612666-5

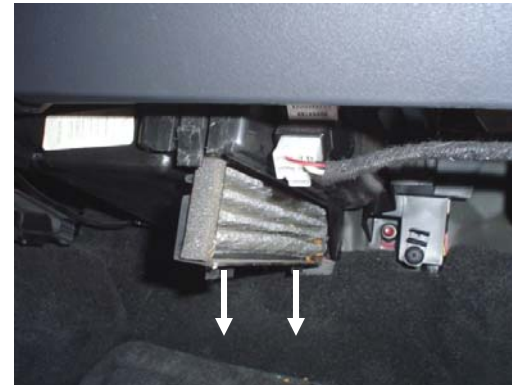

00-04 Volvo S40

1. The filter is located under the glove compartment. Remove the 2 screws holding up the plastic cover. Remove plastic cover and set aside.

2. The filter access door is now visible. Push in on the locking tab and pull down to remove the door. Set filter access door aside.

3. Grab onto one of the handles on the old filter, and slide it downwards until it is completely free from its compartment. Insert new TYC filter in its place, ensuring that Air Flow arrow is pointing towards the driver's side.

4. Reinstall in reverse order.
