TYC #: 800049P

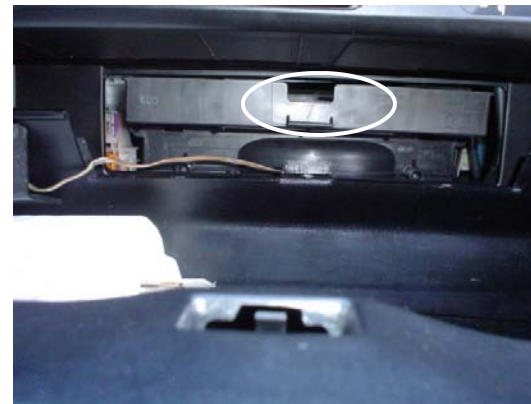

Estimated Time : 5 min.

Replacement for OEM
87139-YZZ04

98-00 Lexus GS 300/ GS 400

1. The filter is located behind the glove compartment. Open glove box, remove plastic cover piece by sliding it upwards. This allows access to the filter access door.

3. Reach in and pull out the filter frame. Remove old filter from frame and replace with new TYC filter, making sure that Air Flow arrow is pointing down.

2. Pull up on the filter access door to release it . Remove and set door aside.

4. Reinstall in reverse order.
