

TYC™

CABIN AIR FILTER

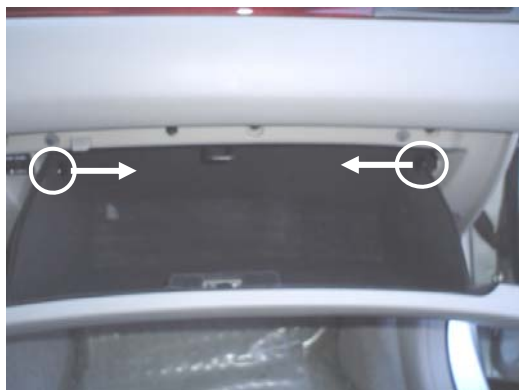

- ▶ Cleaner Air for Passengers
- ▶ Enhanced HVAC Performance
- ▶ Easy Installation, Perfect Fit

TYC #: 800052C

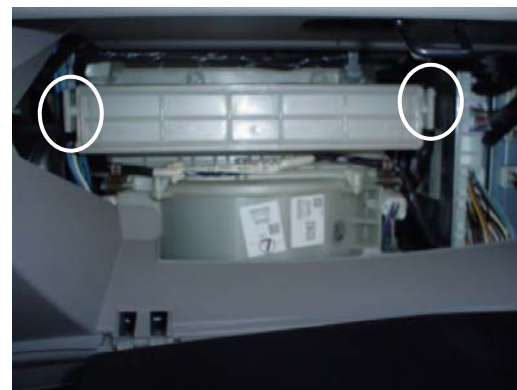

Estimated Time : 5 min.

Replacement for OEM
87139-YZZ03 (New)
87139-33010 (Old)

02-03 Lexus ES 300
03-06 Lexus GX 470
04-05 Lexus RX 330 (Japan Built)

1. The filter is located behind the glove compartment. Twist the removable latches on each side of the glove box, and remove them by pushing them inwards.

3. Push on the 2 retaining tabs to release the filter frame. Slide out the filter frame. Replace old filter in frame with new TYC filter, ensuring that the Air Flow arrow is pointing down.

2. Locate retainer arm on the right bottom of the glove box, unscrew to disconnect it. Allow glove box to swing down on its hinges, exposing the filter behind it.

4. Reinstall in reverse order.

Installation guide pictures are from the **BOLD** vehicle model.
