1. The filter is located under the hood, near the passenger side. Pull away the hose running along the cowl cover. Remove the 2 clips that secure the cowl cover and pull the entire cover up.

3. Replace with new TYC filter, ensuring that the Air Flow arrow is pointing down.

4. Reinstall in reverse order.

2. After removal of cowl cover, filter will be visible. Push up slightly on the filter from its tray and slide it out to remove.
