1. The filter is located behind the glove compartment. Locate and remove the 9 screws (7 top, 2 bottom) holding glove box in place, remove glove box and set it aside.

3. Slide out filter frame, remove old filter from frame, replace with new TYC filter. Ensure that Air Flow arrow is pointing down.

4. Reinstall in reverse order.

2. With glove box removed, filter access door is now visible. Pull on the 2 retaining tabs and remove filter access door. Set door aside.
