1. The filter is located behind the glove compartment. Push in on the sides of the glove box while pulling down to disengage the latches. Allow glove box to swing down on its hinges.

3. Push up from the bottom of the frame to remove the old filter. Install new TYC filter, ensuring that the air flow arrow is pointing down.

4. Reinstall in reverse order.

2. Push in on the retaining tabs on each side of the filter access door to release. Slide out the entire frame that holds the filter.
