1. The filter is located behind the glove compartment. Remove the 3 screws at the top of the glove box and 2 screws at the bottom. Remove glove box and set it aside.

2. Release the 2 wiring connectors behind the glove box cover. Remove glove box cover and set it aside.

3. Remove the screw holding the filter access door, then push in on the 2 tabs to release. Remove door and set it aside.

4. Slide out the first filter at the top, then reach in and pull up the second filter in order to slide it out.

5. Insert new TYC filters, making sure the “Up” arrow is pointing up.

6. Reinstall in reverse order.
