

# TYC™

## CABIN AIR FILTER

- ▶ Cleaner Air for Passengers
- ▶ Enhanced HVAC Performance
- ▶ Easy Installation, Perfect Fit

**TYC #: 800126P**

Estimated Time : 5 min.

Replacement for OEM  
999M1-VS007

**08-10 Nissan Sentra**  
07-10 Nissan Rogue

1. The filter is located below the center console and can be accessed by removing the plastic side panel on the driver's side. Pull panel outwards to release. Place panel aside.

3. Remove filter by squeezing the sides of the old filter softly while pulling it out towards the left.

2. Remove the filter access door by pulling the locking tab and swinging it outwards. Place access door aside.

4. Install new TYC filter by squeezing the sides and pushing it into the cavity. Ensure that the Air Flow arrow is pointing towards the back of the car.

5. Reinstall in reverse order.

Installation guide pictures are from the **BOLD** vehicle model.
