1. The filter is located behind the glove compartment. Remove the four screws along the top of the glove box.

2. Remove retaining bolt by turning counter-clockwise.

3. Remove the two remaining screws holding up the glove box on each side.

4. With retaining screws removed, pull down the entire glove box. Disconnect the white and yellow connectors to gain access to the filter housing.

5. Push on the locking tab on the right of the filter access door, then pull door outwards to remove. Set access door aside.

6. Slide out old filter from housing, replace with new TYC filter. Ensure that Air Flow arrow is pointing down.

7. Reinstall in reverse order.
