1. The filter is located behind the glove compartment. Push in on the sides of the glove box while pulling down to disengage the latches.

3. Grab the removal flap and slide the filter out from the housing to remove.

4. Install new TYC filter into the housing. Ensure that the air flow arrow is pointing down.

2. Allow glove box to swing down on its hinges. Filter access door will now be accessible.

3. Release filter access door by pushing in the 2 tabs on the side.

5. Reinstall in reverse order
