TYC #: 800163P

Replacement for OEM
BE8Z 19N619A

Estimated Time : 15 min.

11-12 Ford Fiesta

1. The filter is located at front passenger center compartment. Remove the screw holding the gray plastic cover. Pull trim piece outward until all clips have detached. Set plastic cover aside.

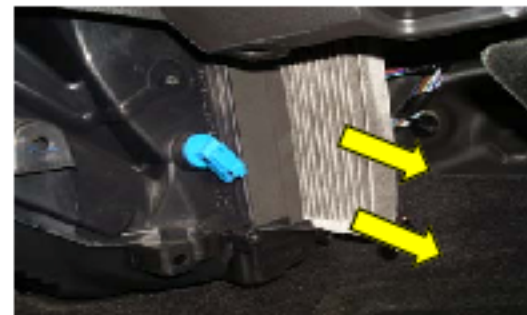

2. Open the glove box and squeeze the both sides. Pull rearward to detach glove box from hinges.

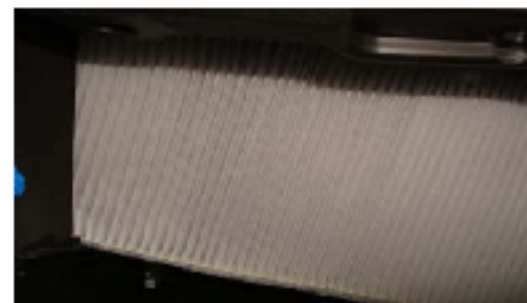

3. AC ventilation tube is located to the left of the glove box and aimed toward the floor. Pull tube forward to unclip the tube from the rest of the ventilation system.

4. Remove 5 screws that holding cabin air filter cover onto housing, then pull cover outward

5. Remove old cabin air filter by pulling straight out and down towards the floor.

6. Insert new TYC filter into the housing.

7. Reinstall in reverse order.
