

# WHY TYGER?

## THE QUALITY YOU CAN TRUST.

To ensure the perfect finish of our black bars and for better rust resistance, we focus every procedure during production including the Pre-treatment and E-Coat before the Black Powder coating. Meanwhile, some similar products in the market reduce their costs by ignoring our first two key procedures.

### HOW WE DO IT

- ① Pre-treatment to remove impurities
- ② Special "E-Coat" Inside & Out
- ③ Dual-Stage Textured Black Powder

### E-COAT

**Consistency** - uniform density  
**Durability** - 1000Hrs+ of salt spray resistance  
**Electrodeposition** - uses electrical current to deposit the paint

### PRE-TREATMENT

**Phosphate**- a smoother & stable surface  
**Acid Washing** - removes rust  
**Oil Degreasing** - rust and corrosion resistance.

## RESULTS WITHOUT PRE-TREATMENT AND E-COAT

Paint bubbles

Rust dust

**Only fit on Quad Cab as the circled one!**

**Dodge truck Cab Details**

**Regular Cab**

*(2 Doors only)*

**Club Cab**

*(2 Full-Size Front Doors & 2 Suicided Rear Doors)*
