

# WHY TYGER?

## THE QUALITY YOU CAN TRUST.

To ensure the perfect finish of our black bars and for better rust resistance, we focus every procedure during production including E-Coat and the Pre-treatment before the Black Powder coating. Meanwhile, some similar products in the market reduce their costs by ignoring our first two key procedures.

### HOW WE DO IT

- ① Pre-treatment to remove impurities
- ② Special "E-Coat" Inside & Out
- ③ Dual-Stage Semi-Glossy Black Powder

### E-COAT

**Consistency** - uniform density  
**Durability** - 1000Hrs+ of salt spray resistance  
**Electrodeposition** - uses electrical current to deposit the paint

### PRE-TREATMENT

**Phosphate**- a smoother & stable surface  
**Acid Washing** - removes rust  
**Oil Degreasing** - rust and corrosion resistance.

## RESULTS WITHOUT PRE-TREATMENT AND E-COAT

Paint bubbles

Rust dust

**Fits most Sedans/Hatchbacks/Minivans and SUVs  
without Rear Spoilers.**

**Safety Strap included**

**Must use the included safety strap to stabilize the bikes during driving. Any accident or damage caused by not following this instruction will not be covered!**
