Must use the included safety straps to stabilize the bikes to avoid bikes from swinging and scratching bikes and vehicle during driving.

# WARNINGS

## **GENERAL REMARKS**

- 01. Please read the instructions carefully and keep them in safe place for future use. Make sure that the carrier is assembled according to the instruction before fitting it on your car.*
- 02. The user is responsible for assembly and installation of this product, and the manufacturer disclaims any liability due to improper fitting or use of the bicycle carrier.*
- 03. Failure to properly install this bike carrier and/or the bikes may cause damage to the vehicle and/or the bikes, and may result in personal injury.*
- 04. Do not use this bike carrier for purposes other than those for which it is designed. Do not modify any components of the bike carrier. Do not use for tandem bikes. Remove the carrier if not in use.*
- 05. Do not use the carrier to carry more bikes than recommended. The weight of each bike cannot exceed 15kg/33lbs.*
- 06. Depending on the style of your bicycle, TYGER cannot guarantee that every bike will fit properly on this carrier. You might have to use the frame adapter for bicycle without a top cross bar.*
- 07. Do not install on trailers, campers, or mobile homes.*
- 08. The bicycle rack is not intended for transporting tandem bicycles.*
- 09. Do not transport bicycles with attached baby seats, panniers, wheel covers, full bike covers or motors.*

## **SAFE AND PROPER USE**

- 01. Always use the safety straps provided to safely attach the bikes to the bike carrier.*
- 02. Check if the distance from the exhaust pipe to the bicycle tires is safe for your bicycles or the straps of the carrier.*
- 03. Check if the back wiper will not interfere with the bicycle carriers or the bicycles before using it. If it does and it is an automatic one, disconnect it.*
- 04. If your vehicle is equipped with an automatic tailgate opening system, disable this function when using the bike carrier, and open the tailgate manually.*
- 05. When loading the bicycles, remove all loose parts and accessories from bicycles (toolbars, baby carriers, pumps, etc.).*
- 06. The user is responsible for periodically verifying that all hardware, straps, knobs, hubs are securely tightened for safety purposes.*
- 07. Periodically inspect the bike carrier for signs of wear, corrosion, and fatigue, and verify that the load is firmly attached.*
- 08. You might have to use extra protections to protect the bikes and the tailgate from scratches.*

## **ROAD SAFETY**

- 01. If the bikes and/or the carrier obstruct the vehicle's tail lights and license plate, you must use an additional signal board.*
- 02. The bike carrier and bikes will increase the overall dimensions of the vehicle. Be very careful when reversing the vehicle.*
- 03. The load of rack and bicycles will affect driving. Do not exceed the speed limit, and do not drive faster than 75 mph (120 km/h). Drive slowly over speed bumps. Respect the speed limit, and adapt your speed to the condition of the road. Off-road driving is not recommended and could result in damage to your vehicle, hitch receiver, or your bikes.*
- 04. If you hit a bump or a hole in the road, stop your vehicle and inspect the bikes and the carrier. If you notice anything wrong, remove the bikes and do not use the bike carrier.*
- 05. Make sure there is a safe distance between the bikes and the ground especially when entering a driveway.*

## **MAINTAINING YOUR BICYCLE RACK**

- 01. Do not use the carrier with defective parts, contact the dealer to replace them before using the carrier again.*
- 02. Remove the bike carrier before entering an automatic car wash.*
- 03. To keep your product in the best condition, it is recommended to remove the product from the car when not in use. Please be advised that this product is not designed to resist extreme weather conditions.*
- 04. Lubricate the bolts in order to avoid corrosion.*
