

WHY TYGER?

THE QUALITY YOU CAN TRUST.

To ensure the perfect finish of our black bars and for better rust resistance, we focus every procedure during production including E-Coat and the Pre-treatment before the Black Powder coating. Meanwhile, some similar products in the market reduce their costs by ignoring our first two key procedures.

HOW WE DO IT

- ① Pre-treatment to remove impurities
- ② Special "E-Coat" Inside & Out
- ③ Dual-Stage Matte Black Powder

E-COAT

Consistency - uniform density
Durability - 1000Hrs+ of salt spray resistance
Electrodeposition - uses electrical current to deposit the paint

PRE-TREATMENT

Phosphate- a smoother & stable surface
Acid Washing - removes rust
Oil Degreasing - rust and corrosion resistance.

RESULTS WITHOUT PRE-TREATMENT AND E-COAT

Paint bubbles

Rust dust

**Only fit on 2007-Up Tundra CrewMax Cab
as the circled one!**

Toyota Pickup Cab Details

**All Tundra
Regular Cab**

(2 Doors Only)

**2000-2006 Tundra
