

UNDERCOVER ELITE - TRUCK BED COVERS

ELITE

by UnderCover

NEW FEATURES... ONLY FOR THE ELITE

The Elite by UnderCover is the most refined UnderCover to date. It is meticulously designed, engineered and produced, but it's the remarkable features that set it apart. Starting with a completely new design, adding the handle to the back, codeable lock, and a brighter, removable LED light, we have made America's most popular tonneau cover even better.

NEW HANDLE

Our new handle is easy to use, ergonomically correct, and the OE design matches the look of the new trucks.

NEW LANYARD

This handy tool allows you to easily access cargo that is just out of reach, and when not in use, it stores neatly out of the way.

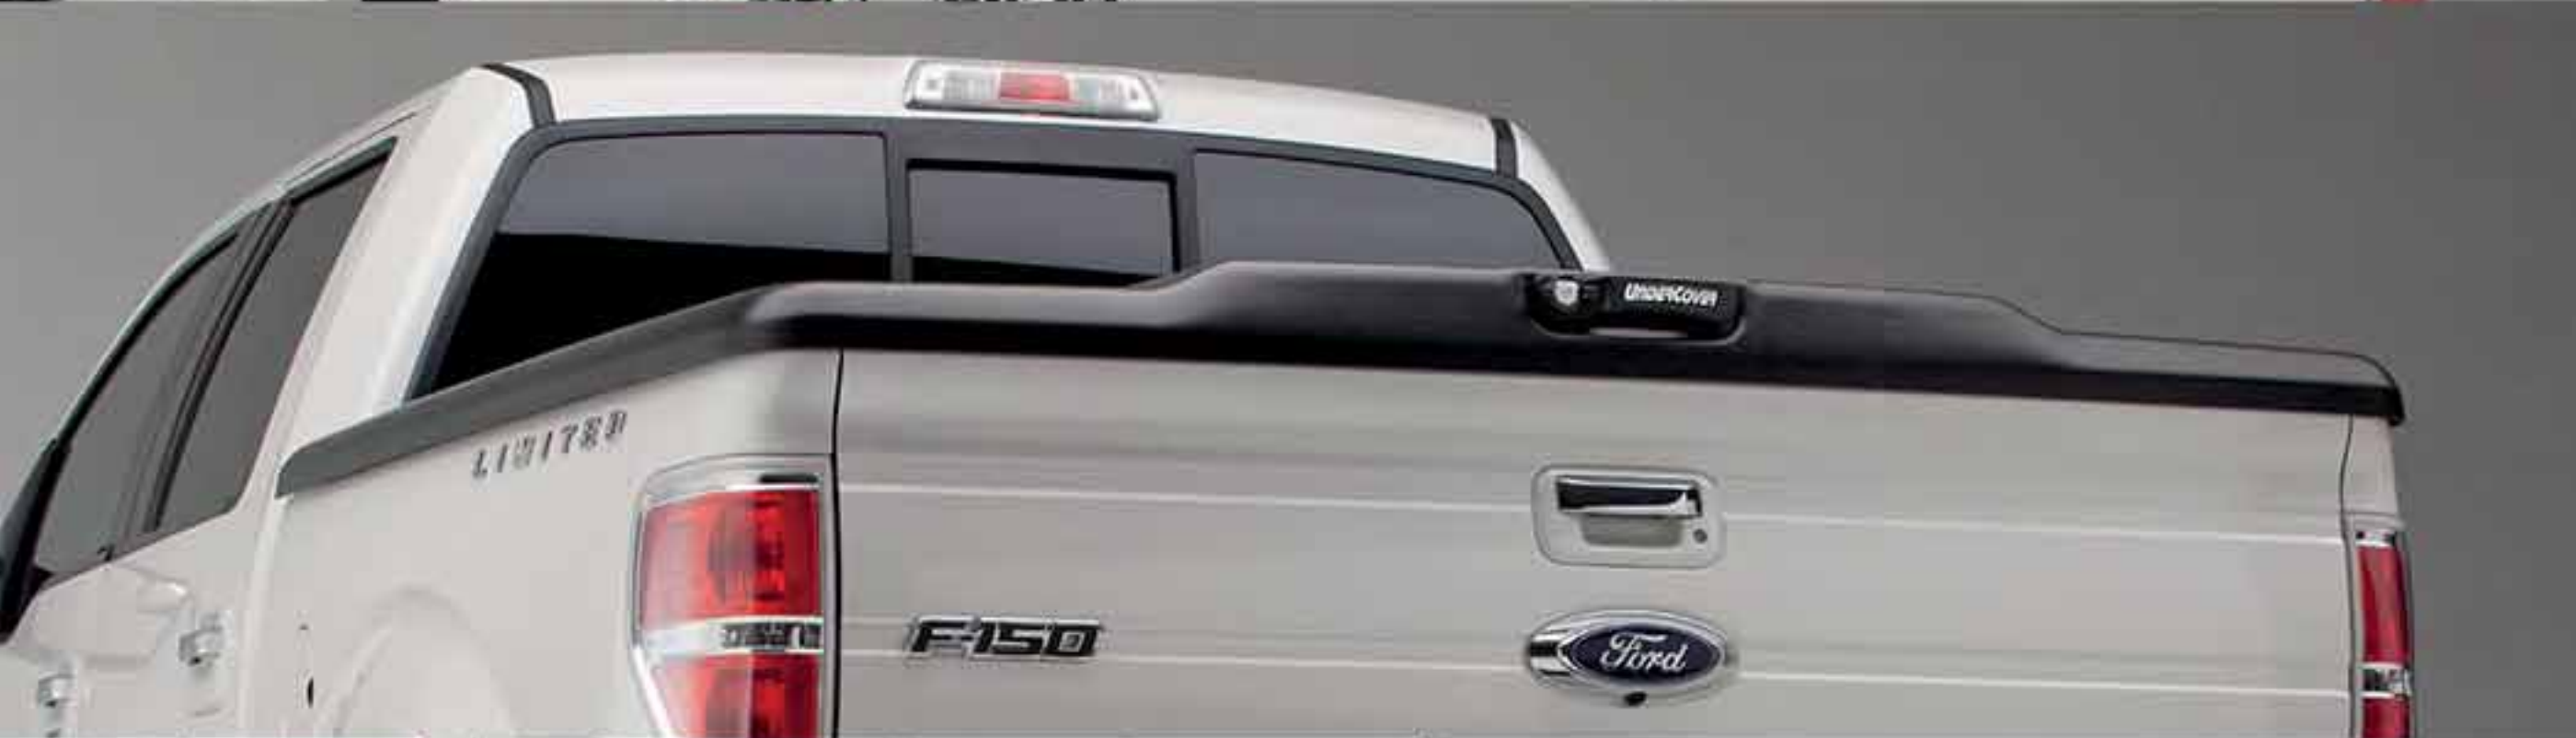

NEW LED LIGHT

The new light is 3 times as bright as the original and it is removable! Slide the release to remove the light, fold out the hook to hang it, use the magnet to stick it, or simply set it down on its built in feet.

NEW OEM LOCK

Now standard on the Elite cover, no need to worry about carrying an extra key; this lock can be custom matched to your truck key.

A NEW STYLE... ONLY FOR THE ELITE

The look of the Elite by UnderCover has been designed to enhance the appearance of your truck and to fit it like it came straight from the factory.

NEW COVER... SAME GREAT FEATURES

Every UnderCover is built from a special blend of ABS composite materials to meet the high quality demand of today's truck owners.

LIGHTWEIGHT

Weighing only 70 lbs on most trucks, the UnderCover is the lightest hard-shell tonneau on the market.

EASY ON AND OFF

The UnderCover removes easily in just minutes, without the need for any tools, using quick release hardware, and reinstall the cover without any adjustments needed.

STRONG AND DURABLE

The UnderCover ABS composite material and the X-Effect structure on the underside gives it incredible strength and durability.

WEATHER TIGHT

With the UnderCover's full perimeter seal and perfect fit, your gear will be protected from all the elements - rain, sleet, or snow.

CUSTOM FIT

Each and every UnderCover is precision engineered to fit your truck like it came equipped from the factory.

OUT OF THE WAY

Every UnderCover comes with wall mount hardware to allow you to store it safely and securely in your garage, up and off of the floor.
