

ESV1000

The ESV1000 now offers you a lifting solution for the jobsite with your enclosed service body. With an extremely small footprint, the crane can stow nicely against the inside wall of the service body when not in use. With the telescopic boom, the ESV1000 can fit in any of the enclosed service bodies and door heights without the need for any add-ons or specialty mounting kits. The winch is situated in a fixed housing to the side of the crane. This will allow the boom to swing with zero winch interference, giving the crane a wide swing radius.

FEATURES

- 1,000 lbs Maximum Capacity
- 3,000 ft-lbs Crane Rating
- Mast Height:
- Extended Boom Reach: 3 ft
- Weight: 175 lbs
- Winch: 12V DC, 1.3 HP motor, 25.5 fpm

STANDARD EQUIPMENT

- 12 ft corded pendant controller
- 25 ft of 3/16" aircraft-quality, wire rope

MINIMUM REQUIREMENTS

- Electrical Power Source: 12V DC

Rely only on high-grade commercial van equipment on our virtual shelves.
