## PN. V2300

## PUSH PIN REMOVAL PLIERS SET

Includes V230 - Straight Pliers and V231- 75 Degree Offset Pliers

- VIM Push pin pliers are designed to remove plastic push pins on Honda, Toyota, GM, Saturn and many other vehicles.
- Special ground tips remove the pins without damage.
- V230 Pliers can also be used to remove U-Joint circle clips.
- V231 has a 75 degree offset head to allow push pin removal in tight areas.
- These tools will save you time and frustration
