

# Cool Air Car Cushion™

Cooling Circulation For Your Back, Legs, and Thighs

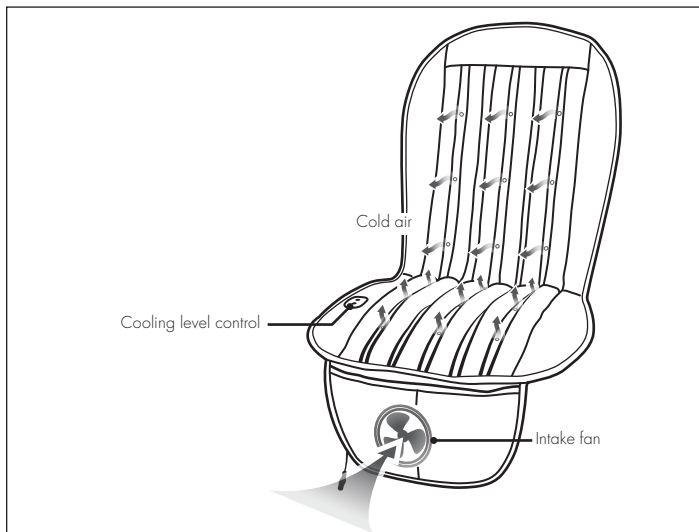

## User's Manual

We are constantly improving our products so specifications are subject to change without notice.

## Cool Air Car Cushion™ by HealthMate Products™

Thank you for purchasing the Cool Air Car Cushion™ by Healthmate Products™. With normal care and proper treatment, it will provide years of reliable service. Please read all operating instructions carefully before use.

Get prepared for those long, hot summer days with this innovative Wagan® Cool Air Car Cushion. As you drive, a powerful intake fan distributes air to your back, legs, and thighs. This circulating air provides cool relief that satisfies and helps reduce perspiration. So sit back, relax, and stay cool!

### FEATURES

- Circulating air absorbs heat from the body and helps prevent perspiration
- Adjustable air flow (high/low)
- Powered by standard 12V DC socket or vehicle cigarette lighter (optional home AC power supply sold separately)

### SPECIFICATIONS

- Exterior material: mesh cloth
- Speed control: high and low settings
- Straps for securing to seat
- DC power cord included
- Optional AC power supply (sold separately)

### WARNINGS

- Always unplug the appliance from the electrical outlet or vehicle immediately after using and before cleaning.
- An appliance should never be left unattended when plugged in. Unplug from outlet when not in use.
- Use this appliance only for its intended use as described in this manual.
- NEVER operate this appliance if it has a damaged cord or plug.
- Keep cord away from heated surfaces.
- Do not block ventilation fan intake.

## OPERATION

### *For Vehicle Use:*

1. Remove the supplied 12V adapter from the package.
2. Plug in the output side of the 12V cable into the cushion.
3. Plug the 12V tip into the 12V socket in your vehicle.  
NOTE: Be sure to unplug the unit when the vehicle is off to avoid possibly depleting your vehicle's battery.

### *For Home/Office Use*

A separate AC adapter will need to be purchased in order to power this unit through a wall outlet.

1. Plug in the output side of the 12V cable into the cushion.
2. Plug the AC adapter into your wall outlet.

## MAINTENANCE

### *To Clean:*

- Before cleaning, remove the power cord from the outlet.
- Wipe with a soft cloth. DO NOT use abrasive cleaners.
- Never submerge the unit in any liquid. Keep away from all solvents and harsh detergents.

### *Storage:*

Place in a safe, dry and cool place. Avoid contact with sharp edges or pointed objects which might cut or puncture the surface. To avoid breakage, DO NOT wrap the power cord around the unit.
