P/N 10203 (Set of 3 – Includes additional hardware)

Kit Contents:

<u>Item</u>	<u>Qty</u>	<u>Item</u>	<u>Qty</u>
Platform Awning Bracket	2	5/16" x 3" Bolt NC Zinc G5	4
¼" x 1-1/2" SS BHSCS	4	5/16" x 1-3/4" Bolt NC Zinc G5	4
¼" SAE Flatwasher	8	5/16" Flatwasher Zinc – SAE	8
¼" Regular Hex Nylock Nut	4	5/16" Nyloc Nut Zinc	4

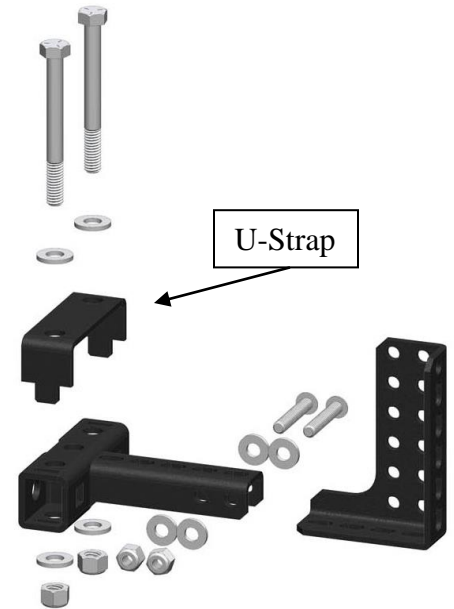

Installation Procedure:

The Warrior Products Awning Bracket can be installed in almost any configuration on the Warrior Products Platform Roof Racks and Bed Racks. We have made specific design choices to accommodate placement of the bracket on the mounting buckets, corner plates, or any of the square crossbars. This versatility allows you to select the best placement for your vehicle and awning style. Please refer to the set of included images (below) to select your desired configuration and mounting solution.

The Awning Bracket's exploded view with hardware (on the right) provides a detailed reference on how to assemble this product. Granted this is just one of many configurations, the other configurations do follow suit.

Additional Notes:

The U-Strap (labeled 'U-Strap' on image) acts as both the square crossbar connection and/or spacer for top-mounted bucket installation.

THANK YOU FOR PURCHASING WARRIOR PRODUCTS

We offer roof racks that are tested to the limit and beyond.
