800003
BUMP STOP BRACKET – JEEP YJ
INSTALL INSTRUCTIONS

Please read instructions before beginning installation. Check the kit hardware against the parts list. Be sure you have all needed parts and know where they go.

1. Loosen the U-bolts and slide the Bump Stop under the U-bolts, on top of the axle, and tighten.
2. Repeat on the other side.

MAINTENANCE INFORMATION

It is the ultimate buyers responsibility to have all bolts/nuts checked for tightness after the first 100 miles. After that, check them every 1000 miles. Wheel alignment steering system, suspension and drive line systems must be inspected by a qualified professional mechanic at least every 3000 miles.
