LICENSE PLATE FAIRLEAD MOUNT

INSTALLATION INSTRUCTIONS

WAR 2350

1. Begin by unpacking your kit. You should find a mount plate, two clip mechanisms, and an assortment of bolts and nuts.
2. Use the supplied four bolts and nuts to install the clip mechanisms to the mount plate. These clips mount on the back side of the plate, opposite the threaded studs.
3. With the clip mechanisms bolted up and tight, slide your license plate over the 4 threaded studs.
4. Affix a flat washer, external lock washer, and then an acorn nut to each stud.
5. Your mount is now full assembled and can now be installed and uninstalled from your roller fairlead by simply pressing it into place.
