

WeatherTech®

PET PARTITION

IMPORTANT

Do not install this product in a manner that will interfere with any vehicle occupant safety systems. This product is not designed to restrain pets, occupants or cargo in the event of a collision.

Note: The shortest length will fit between the car seats. The longest length will run from the top of the seat to the vehicle floor. Pocket can face either direction, i.e., facing the front of the vehicle or the back of the vehicle. If the seat is equipped with adjustable headrests, raise the headrest as needed to allow installation.

Installation Process

Step 1: Holding the Pet Partition between the backs of the front seats, place the top right strap around the inner headrest post of the driver's seat and connect the buckle. Repeat on the right (passenger's) side. Adjust the straps on either side to desired width (should not sag).

Step 2: Pull the lower right strap around the inner leg of the driver's seat frame and connect the buckle. Repeat on the right (passenger's) side. Adjust straps on either side to desired width. Ensure that the straps do not interfere with any seat airbags, latches or other vehicle devices or mechanisms.

Cleaning Instructions

1. Mix one ounce of a gentle, non-toxic detergent with one quart of warm water
2. Spray or sponge onto Pet Partition
3. Rinse with plain water (until no suds) and air dry
