PROCEDURE

1. Remove contents from box, verify if all parts listed are present and free from damage.

Carefully read and understand all instructions before attempting installation.

Failure to identify damage before installation could lead to a rejection of any claim.

2. Preassemble the Mounting Brackets and Link Brackets (4,8,9). Do not tighten hardware at this time. See **Figure 1**.

3. Starting on the passenger side of the vehicle, locate the 3 mounting locations on the rocker panel.

Note A: The rear mounting location is shown in **Figure 2**. Other mounting locations are similar.

Note B: The lower two studs on the rocker panel have a thick coat of paint on them. When installing the M8 hex nuts, apply extra pressure to start. If necessary, back M8 hex nuts off the studs to clear build up.

See **Figure 2**.

Note C: You may install plastic retainer squares (Item 34) on each stud before installing bracket as insulation between the bracket and rocker panel.

Rear Mounting Location Shown
Other Mounting Locations are Similar

4. At the rear mounting location, loosely install Mounting Bracket A (8) with preassembled Mounting Bracket Base (13) using the supplied M8 hardware. See **Figures 3 & 4**.

5. At the center passenger mounting location, loosely install Link Bracket (4) with preassembled Mounting Bracket Base (13) using the supplied M8 hardware. See **Figures 5 & 6**.

6. At the front passenger mounting location, loosely install Mounting Bracket B (9) with preassembled Mounting Bracket Base (13). **Note:** Installation is similar to Mounting Bracket A.
7. Repeat **Steps 4-7** on the driver side of the vehicle. **Note:** Driver Front will receive Mounting Bracket A (8) rather than B.
8. Moving to the rear-most location, install the Top Isolator Bracket (10), Top Isolator Brace (11), and Bottom Isolator Bracket along with the Isolator Kit (14). See **Figures 8 & 9**. You will need to first remove the bolt in the bed as shown in **Figure 7**. **Note:** A breaker-bar or impact gun will help in removal. The bolt is very tight.

Fig 11

10. Obtain both sections of the Step Bar Assembly (1 & 2). Slide the Reinforcement Links (6 & 7) into both sides of the step bar sections. See Figure 12.

11. Line up the holes on the Step Bar sections with the holes on the Reinforcement Links (6 & 7). See Figure 13.

Fig 12

Fig 13

12. Obtain the Link Plate (5) and secure it to the Step Bar Assembly (1 & 2) using the supplied black M6 Hardware. See **Figure 14**. *Note:* Driver side shown.

13. Installation of the step boards will utilize the supplied black M8 hardware with Plate Adapters (16) for all brackets excluding the Link Brackets (4). The Link Brackets (4) will use the supplied black M10 hardware. See **Figures 15 & 16**.
14. Align and adjust the step bars and brackets as needed, then fully tighten all hardware: M6 to 7 ft-lbs, M8 to 15-18 ft-lbs, M10 to 32-38 ft-lbs.

Plastic Cover Installation:

1. Locate (1) plastic bracket cover (Item 15) and loosely secure it to the brackets using the provided hardware: (2) M6 hex head cap screws, (4) M6 flat washers, and (2) M6 nylock nuts. Repeat for every bracket. See **Figure 17**.

WARNING

Failure to follow these instructions could lead to death, personal injury, and / or property damage.

Failure to follow these instructions could lead to death, personal injury, and / or property damage.

FASTENERS:

All Westin supplied fasteners must be utilized and installed in accordance with the installation instructions and apply torque to the specifications as defined. **DOUBLE CHECK ALL FASTENERS BEFORE INITIAL USE, AND PERIODICALLY IN THE FUTURE TO ENSURE PROPER FUNCTION AND SAFETY.**

DRILLING:

Most Westin products do not require drilling for installation. If drilling is defined as required, use caution when drilling a vehicle. **FAILURE TO REVIEW AN AREA TO BE DRILLED MAY RESULT IN PERSONAL INJURY AND/OR INJURY TO OTHERS AS WELL AS VEHICLE DAMAGE.**

EYE PROTECTION:

ALWAYS WEAR SAFETY GLASSES OR GOGGLES DURING THE INSTALLATION PROCESS TO AVOID PERSONAL INJURY.

MAXIMUM TOWING/CARRYING CAPACITY: (if applicable)

The Westin Receiver Hitches will have a visible tow rating label affixed directly on the product. User should never exceed the vehicle manufacturers maximum tow and weight rating regardless of the capacity of the hitch. **FAILURE TO FOLLOW THESE GUIDELINES WILL VOID THE WESTIN WARRANTY AND MAY RESULT IN PERSONAL INJURY AND/OR INJURY TO OTHERS AS WELL AS VEHICLE DAMAGE.**
