

KART / JR. DRAGSTER CALIPER

Caliper Highlights:

Wilwood's **Kart / Jr. Dragster Caliper** has been designed specifically for racing. A unique self retracting and adjusting piston system has been incorporated into this caliper which enables the piston to retract as the brake line pressure is reduced. The caliper can be mounted on either side of the vehicle and comes in three rotor widths to accommodate most applications. Weighing a meager 1.2 pounds, the caliper's lightweight billet design includes high performance, high friction brake pads. Additional features include deep cup stainless steel piston for reduced heat transfer, cotter pin, pad retainer, internal fluid passage and blue anodized finish. A <u>specifically designed master cylinder</u> is also available for use with this caliper.

ORDERING INFORMATION:

BORE SIZE	DISC WIDTH	PART NUMBER
1.00" 25,4 mm	.12" 3,0 mm	120-5498
1.00" 25,4 mm	.18" 4,6 mm	120-5750
1.00" 25,4 mm	.50" 12,7 mm	120-5499
