

Wilwood's Forged Aluminum Pedals provide the ultimate combination of lightweight, high strength, and adjustable versatility for driver comfort in custom race applications with fabricated pedal mounts.

Pedals shown with optional master cylinders

Pedal Features

- Forged aluminum I-Beam design arms provide superior strength over cast arms
- Aluminum mount box
- Black E-Coat finish
- Adjustable stainless steel non-slip waffled foot pads add options for driver's positioning preferences
- Available for brake and clutch applications in floor or swing mounting locations
- Radiused clevis and pivot pin pushrod attachment provides full rotation for bind free travel
- Integral brake pedal return spring attachment point
- Remote adjustable with cable
