

FOR IMMEDIATE RELEASE:

Wilwood Engineering Introduces a Superlite FSLI Internal Crossover Caliper

Wilwood has just released a new Forged Superlite internal crossover caliper that will make circle track and off-road racers very happy. The Superlite caliper series has set the standard for many years in short track, late model, modified and open wheel competition. It has also enjoyed prominence in a variety of off-road race, off-road, rally and sport driving applications. The new Forged Billet Superlite with internal crossover passages is the newest innovation to this series from Wilwood. Most racers are aware of Wilwood's super strong stress-flow forging and now they can purchase the Superlite with internal crossover passages that will eliminate the chance of crossover problems that can be caused by racing on surfaces where rocks and gravel can damage the crossover tubes. This caliper part number [120-11136](#) is on the shelf and ready for delivery.
