

WindRestrictor

BATTERY PACK INSTRUCTIONS:

How to charge: *(Charge for at least 8 hours)*

1. Plug charger into wall outlet and the green light will come on.
2. Switch battery to the "ON" position. The battery's red LED light will illuminate.
3. Connect the charger to the "DC In/Out" of the battery. Light on the charger will change to red. Once this light changes to green, the charging cycle is complete.

(Fully charged battery will provide approximately 30 hours of operation.)

Rely only on premium accessory lighting on our virtual shelves.
