## WINEGARD'S SOLUTIONS FOR YOU

Winegard offers a wide range of connectivity products for any on-the-go lifestyle.

Winegard has become a name RVers know and trust by building high-quality, high-performance WiFi, 4G LTE, broadcast HDTV and satellite TV products. If NASA trusted Winegard on the Apollo 11 mission, then RVers should too.

The diverse satellite, over-the-air TV and connectivity lineups also give Winegard the distinct advantage in offering a solution for every lifestyle and budget.

Winegard antennas are proudly designed and manufactured in the U.S.A.

DESIGNED AND MANUFACTURED IN  
SINCE 1953 **USA**

# WINEGARD APPS MAKE IT EASY!

## Winegard App TV SIGNAL FINDER with Augmented Reality

Let Winegard® keep you connected to your favorite shows while tailgating or RVing by helping you locate your favorite stations with this smart **TV Signal Finder** app featuring **augmented reality (AR)**.

Finding your favorite TV programming has never been easier! Using your current location, the app searches for all available signals and determines the correct antenna positioning.

Avoid obstructions with the augmented reality (AR) view.

## Winegard App CONNECTED

works with  
**Connect, Connect 2.0, Togo Roadlink C2 and Gateway**

Let Winegard® keep you **connected to the internet** while on the road using our Connected app for Winegard internet products.

Installation and setup of your Connect system is quick and easy when using our app.

**No PC needed!** Use your mobile device to: switch WiFi and LTE networks, view data usage, purchase data, update software, or access support documentation.

### DUAL MODE

#### Antenna Pointer

Use the top-down map view to locate all HDTV towers closest to your address or GPS location. Eliminate signal obstructions such as trees, hills, and buildings by switching to the AR view. Simply point your phone to the horizon and rotate 360 degrees to bring into view your desired TV tower and find the best direction to point your antenna.

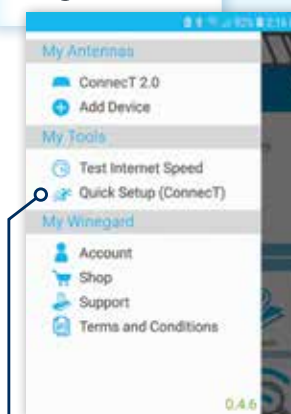

The number displayed above a tower indicates the number of channels available. Tap the tower icon to see full channel details.

#### Satellite Pointer

Use the AR view to locate DISH, DIRECTV, Bell TV, or Shaw Direct satellites available for your mobile antenna. Simply point your phone at the southern sky to locate your target satellites and stay clear of signal obstructions such as trees and buildings.

Azimuth and elevation pointing look angles are provided for easy pointing and setup of manual antennas.

**Slideout Menu**  
Internet download speed test, quick start setup, shop Winegard.com

Quick App Overview

**Info** Helpful hints, troubleshooting

**Overview** Connection status, tap to see signal strength, software version

**Settings** Change network info

**Internet Source** Switch between WiFi, 4G, and no Internet

**Support** Contact Winegard, access logs and manuals

**About** Update software, view system info

**Buy data** Purchase Winegard LTE data (pay 30 days at a time with no throttling)

**Scan for WiFi** Scan and switch to available WiFi networks

## CONNECT 2.0 SHOUT-OUTS

“Without the Winegard Connect 2.0, I can't even see the campground wifi in our current location. With it, we have 51% strength. I don't have a range finder to determine exact distance, but we are at least 100 yards away from the campground router. At other campgrounds we have been at, the distance has been comparable. We can see and use the wifi from much farther away than just using our computers.”

-Bubba on the Road

“Overall, the Winegard Connect 2.0 WiFi Range Extender has been a terrific addition to our arsenal of Internet devices to keep us connected while we travel full-time in our RV.”

-Kellogg Show

“The Connect 2.0 4G2 is essentially two devices in one; a long range WiFi extender and a 4G LTE device. In both cases it picks up the signal and rebroadcasts them around your RV to create a strong large hotspot for all your devices. For anyone considering full-time RVing or extended trips, devices like this are almost a necessity.”

- Snowbirds & RV Travelers

PREMIER

## RAYZAR® AUTOMATIC

### Automatic Aiming Antenna

Eliminates time and hassle of searching for signals. Quickly identifies all available TV signals and stops where the most local broadcast channels are found.

### High Performance Antenna Design

Utilizes state-of-the-art amplifier that increases range and channels while reducing pixelation and dropouts.

**Sleek, Ultra-Low Profile** Antenna is hardly noticeable at 7" dome height. Dome and elements fully protected from harsh environmental conditions.

AVAILABLE IN BLACK OR WHITE

EXTENDED RANGE

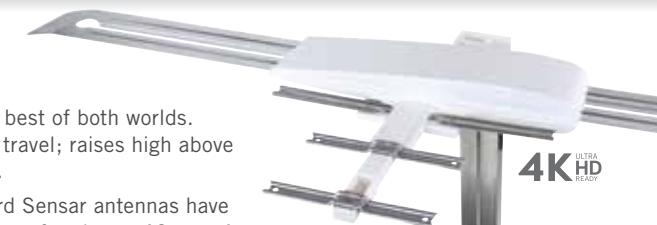

## SENSAR® IV

**Unsurpassed Range** Patented design and a high look angle create the best performing antenna overall, reaching 60+ miles.

**Maximum Dual Band Reception** Provides VHF and UHF programming for complete coverage.

**Low Stow Height** Get the best of both worlds. Low stow height is great for travel; raises high above obstacles for max reception.

**Industry Favorite** Winegard Sensar antennas have been the leader in RV antennas for almost 40 years! Available as full unit or replacement head only.

AVAILABLE IN BLACK OR WHITE

LOW PROFILE

## RAYZAR® z1

### Superior UHF/VHF Reception

Optimal UHF reception with strong High-Band VHF allows you to catch your favorite broadcast channels anywhere you go.

**Sleek, Aerodynamic Design** Streamlined design with minimal footprint is not only smaller and shorter (8.4"), but the modern design complements every RV.

**Easy to Use and Install** Effortless rotation and no cranking required. Easily replaces existing antenna unit or head with minimal effort.

Available as full unit or antenna only for Sensar retrofit/Rayzar z1 replacement.

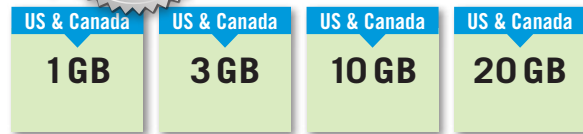

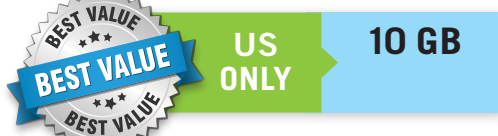

AVAILABLE IN BLACK OR WHITE

PREMIER

TRAV'LER® DISH 1000

**Multiple Satellite Viewing** The only antenna capable of receiving maximum programming simultaneously allowing multiple TVs to provide unique programming.

**Strongest Performer** Outperforms all other antennas since it's designed with DISH's premier reflector used for home systems. Uses Dish Pro Hybrid LNB which is compatible with Hopper 3 and offers 16 satellite tuners.

**Works with most DISH Receivers including Hopper and Hopper with Sling** Watch and record from different satellites simultaneously. Best option to use multiple receivers.

stowed

IN-MOTION

ROADTRIP® T4

**In-motion Viewing** The only way to watch live TV while parked or traveling down the road. Or before hitting the road, set up to record shows and watch later.

**Quieter System with Improved Tracking** New motors and updated tracking algorithms reduce noise and improve tracking for quicker recovery when obstructions cause signal loss.

**Always Ready for Viewing** No set up each time you park, just turn antenna on and watch TV.

**Ultra Small Footprint** Requires minimal roof space. Also compatible with DIRECTV (SD) and Bell TV (HD)

SIMPLE PORTABLE

DISH® PLAYMAKER®

**Low Price** Budget friendly antenna exclusive for Dish

**Take It Anywhere** Sleek, compact portable requires minimal space making it easy to take with you wherever you go!

**Effortless Set-up** Fast acquisition time through a customized receiver interface. Powered through Wally receiver, only requiring coax cable. Runs OS version 2.1 for expanded nationwide coverage including Eastern arc satellites for more local HD channels.

**Single or Dual** Models for single or dual outputs. All models available as bundle. Dual output available in white or black.

Works exclusively with DISH HD Solo receivers.

Not compatible with RK-2000 or MT-4000.

ROBUST AUTOMATIC

PATHWAY® X2

**Total Coverage** Access all DISH HD locals on both Western and Eastern Arc orbitals. If one Arc is obstructed from view, easily switch to the other Arc.

**Larger Reflector = Better Performance** 18" reflector enables the best reception from a portable throughout the U.S. in all weather conditions.

**Simple to Use** 100% automatic. Runs through customized receiver interface for faster acquisition time. Powered through receiver, only requiring coax cable.

Works exclusively with DISH HD Solo receivers.

RECEIVERS

HR24 DIRECTV HD DVR Satellite Receiver

H24 DIRECTV HD Satellite Receiver

Receivers

**TV the way you want it.**

DIRECTV Receivers are designed from the bottom up to deliver unrivalled TV enjoyment. If you have a High-Def TV, you need an HD receiver and HD service. Your TV alone won't give you an HD picture. To get the most out of DIRECTV, take a look at our HD DVR, which delivers HD resolutions of up to 1080p, the same as Blu-ray™, and state-of-the-art digital video recording. You must have a TRAV'LER antenna to receive HD.

**Receiver models include:**

RC-OH24 | RC-HR24

# Shaw) Direct

# Bell

## SATELLITE TV ANTENNAS DESIGNED FOR CANADIAN PROGRAMMING

Wherever the road takes you throughout your Canadian adventure, Winegard has you covered with compatible Shaw Direct and Bell TV antenna products.

The TRAV'LER antennas have the unique ability to provide different programming to multiple TVs at once with no limitations. With a large reflector they are the most reliable and strongest performing antenna Winegard offers.

The RoadTrip T4 offers a sleek, low-profile design with in-motion capabilities, making it possible to watch TV while traveling down the road; great for families on the go!

Portable satellite antennas such as the Carryout G3 offer the convenience to take satellite TV anywhere.

No matter your need, Winegard has your antenna solution.

Tripod mount has adjustable height and leveling settings of 14.5" – 22". Quickly disassembles for compact storage.

For use with Gen 1 and Gen 2 antennas:  
GM-9000, GM-9035, PL-7000, PL7000R, PL-8000, PL-8035, PA-1000, PA1000R, PA-6002, PA6002R, PA-2000, PA-2035, PA2000R, PA2035R, GM-1518, GM-6000, GM-6035, GM-2000, GM-2035, GM-MP1 and GM-5000.

### TEMPORARY

### ROOF KIT RK-4000

Permanently mount your compatible portable antenna to your vehicle roof. No need to buy another antenna to replace your portable!

Compatible with Gen 2 antennas:  
GM-9000, GM-9035, PL-7000, PL7000R, PL-8000, PL-8035, PL8000R, PL8035R.

Use RK-2000 for Gen 1 antennas:  
PA-2000, PA-2035, PA2000R, PA2035R, GM-6000, GM-6035, GM-2000 and GM-2035.

### PERMANENT

## LOCAL HDTV

### WINGMAN® RV-WING

Add on attachment for Sensor II and Sensor III antennas. Increases UHF reception up to 100%. Installs in minutes - no tools required.

### SENSORPRO®

RFL-342 white | RFL-332 black

Provides real time feedback to find broadcast signals faster and easier. Boosts and amplifies signal for improved performance of your antenna. Works with all OTA antennas.

AVAILABLE IN BLACK OR WHITE

### WINEGARD SENSOR REPLACEMENT PARTS

Available at many RV dealers and/or service centers nationwide.
