Wohler TFT 7" monitor with 6 ft. connection cable (removable monitor), digital meter counter, fixed Wohler 1" camera head, 100 ft. push rod 0.24" dia, anti-slide mat, 1 NiMH battery and charger, plastic case, guidance sleeve, guidance ball

CLEAR VIEW, WHEN SPACE IS TIGHT

In addition to competently analyzing hidden defects in all types of buildings, the Wohler VIS 250 provides you with transparent on-the-spot damage diagnostics. Thanks to its user-friendly handling and instant start-up characteristics, you not only ensure your customers are satisfied but you can also feel relaxed about meeting the challenges ahead. The integrated video memory allows you to fully document your inspection work. The camera saves a video of the voyage of the camera head through the pipe. It passes even several 90° bends without problem. With a simple touch of a button a photo of a damaged spot can be made and stored.

INTELLIGENT CAMERA HEAD GUIDES AND TRACKS

We have brought the localization of the damage to perfection so that it is easy to estimate the cost for the repair. The distance to the camera head is indicated in the display as well as the position. This helps very much in run of ducts. The display always shows where the top and the bottom of the duct are. The user also sees the exact angular momentum in which the camera head is pushed upwards or downwards. With the new Wohler L 200 Locator it is even possible and economic to locate the camera head via radio.

Looking for dependable diagnostic and testing tools? Rely on Wohler for quality and long-lasting products.
