Plastic case

FULLY DIGITAL CAMERA SYSTEM

A new digital high-resolution sensor assures amazingly sharp images. With the Wöhler VIS 700, professionals are able to plan their maintenance services on the basis of clearly visible facts. The displayed level indication ensures you to keep orientation in the pipe. The camera display shows the camera head position and angle for ease of navigation. The home function allows you to realign the camera head straight forward when needed. HD images are displayed for you on the brilliant, touch screen high-resolution monitor. The Wöhler VIS 700 inspection camera is designed to transmit live video data to smart devices via Wireless LAN. While conducting an inspection, you have the option to stream live images and videos on a smartphone or tablet. You can also save all footage to an SD card for reviewing at a later time.

INDIVIDUAL CONTROL OF SHARPNESS

The focus function via touch screen or joystick makes it possible to precisely control the depth of focus. A simple tip on the joystick ensures a precise, crystal clear image on the screen. Additional settings and extras, such as the touch screen keyboard, are accessible by tapping the touchscreen monitor.
